

Leviton Omni Home Automation System

Quick Reference Guide

ARMING YOUR SYSTEM

By pressing any of the shortcut keys twice, or pressing any of the shortcut keys once then followed by your code, your system will arm in the desired (AWAY, NIGHT, DAY, OFF) mode.

AWAY: Arms the entire system, including motions, with an entry/exit delay

NIGHT: Arms the perimeter of the system instantly, with no motions and no delay

DAY: Arms the perimeter of the system, with no motions, with a delay

OFF: Pressing OFF followed by your code will disarm the system

ADDING OR CHANGING CODES

Press **9** + (your current code) + **1**. You are now at "Code 1," which is the Master code slot. Enter the 4-digit code you would like to add, press the '#' key, then re-enter your current code to set.

BYPASSING A ZONE

Press **2** + **8** + Scroll down to the desired zone and press #, then your code.
To unbypass, press **2** + **9** + **0** + # + your code.

RESETTING SYSTEM & CLEARING TROUBLES

- If you have any "trouble" type messages always try pressing * to clear the system
- If the system is beeping and you are unsure why, try pressing * to clear the system
- If you have a **FIRE** alarm you must arm and disarm the system to reset your system
